## ELECTRONIC SENTRY SYSTEMS OF AMERICA

7315 Lankershim Boulevard, North Hollywood, California 91605  
North Hollywood Los Angeles Van Nuys  
764-1573 875-0328 983-1668

Mr. Businessman:  
The constantly-climbing Crime Rate, and predictions of "more to come," gives us reason to be concerned for the safety of our possessions and of our very lives! If you happen to be in a business which requires you to keep moderate-to-large sums of cash, you will share a common concern about being ROBBED.  
The ELECTRONIC SENTRY SYSTEM is a new concept in protection, designed for commercial use, providing features not found in any other system. It protects PEOPLE as well as PROPERTY.

### A SYSTEM OF COMPONENTS DESIGNED FOR FLEXIBILITY & ECONOMY

#### CENTRAL CONTROL PROGRAMMER

A solid-state radio receiver, employing RHF and AF radio frequencies. This unit receives signals from sensing devices of varied nature, in the event of a security violation. It has the inherent ability to differentiate between a Burglary and a Hold-Up, and activates the appropriate counter-measures!

#### PHONE ALARM

Available in two models (Single or Double Deck) it is programmed to furnish specific details of a violation, the premises, and other vital data—to the appropriate agency (Police, Sheriff, Fire, etc.)

This device will SEIZE a telephone line, EVEN IF IT IS THEN IN USE, to deliver an emergency message!

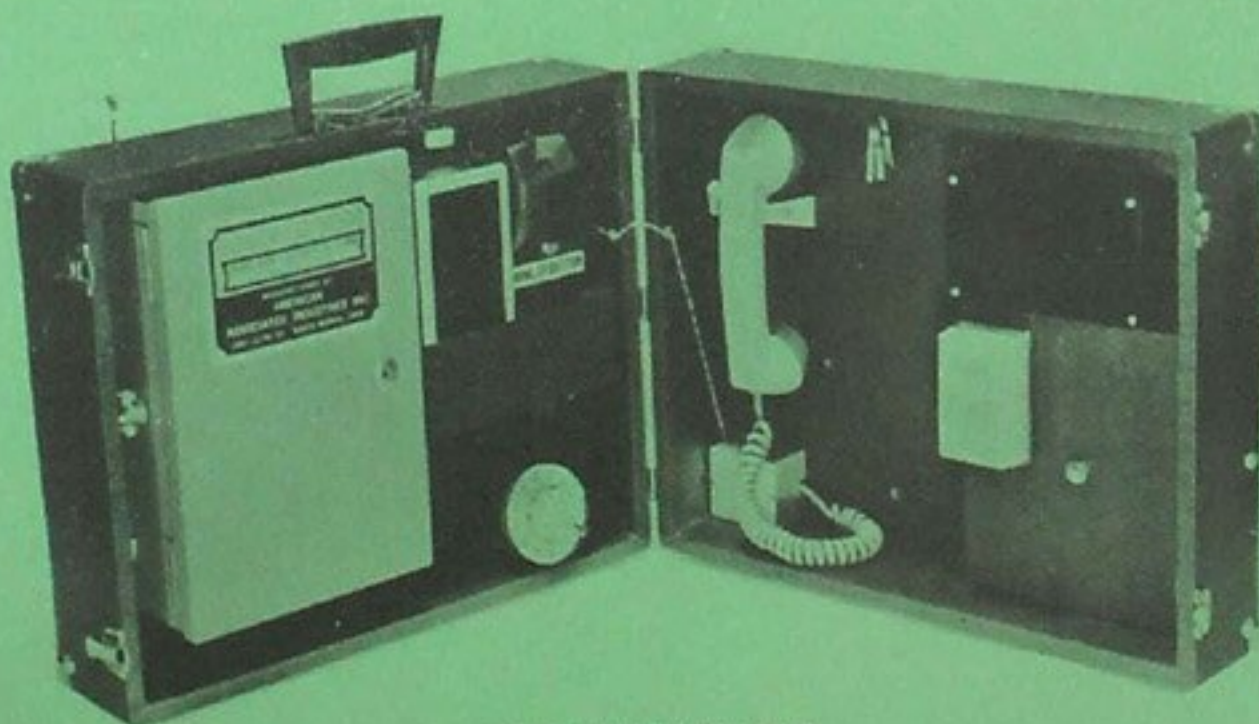

#### TRANSISTORIZED TRANSMITTERS

There are several types, both for mounting on walls and for PERSONAL PROTECTION. The silent signal of a transmitter is received by the CENTRAL CONTROL PROGRAMMER, instantly, when a violation occurs.

#### OTHER DEVICES

ELECTRONIC SENTRY SYSTEMS of AMERICA can provide an assortment of highly sophisticated devices, for complete protection of ANY area—indoors or outdoors!

ASK ABOUT AMERICA'S ONLY FAIL-SAFE EMERGENCY ALARMS!
